

# PROBLEM - SOLUTION FIT

Date	23 Octobar 2025
Team ID	NM2025TMID01747
Project Name	Garage Management System
Maximum Marks	2 Marks

## Problem Solution Fit Template :

The **Garage Management Project** effectively resolves key inefficiencies in traditional garage operations by leveraging **Salesforce automation**. It simplifies and integrates processes such as **customer management, service tracking, billing, and communication**, ensuring smoother workflows and improved productivity. By minimizing manual errors and delays, the system enhances **data accuracy** and **customer satisfaction**, providing a comprehensive digital solution that aligns with the operational demands of modern automobile service centers..

## Purpose :

- **Automate and streamline** garage operations to minimize manual effort in managing customers, vehicles, and services.
- **Ensure accurate data management**, efficient service tracking, and transparent billing through the use of Salesforce automation tools.
- **Enhance customer satisfaction** by providing timely updates, reliable communication, and consistently high-quality service delivery
